

Navigating Success for Prescribers, Pharmacists, and Patients

FillPoint Health provides Specialty Pharmacy and Management Services. We provide expert drug access coordination software and services that are integrated across the patient journey.

What Makes FillPoint Different?

FillPoint Health, a Lyceum Company, works alongside your teams to remove barriers and improve the experience for provider practices and patients. Our technology-driven management services are embedded in provider workflow to accelerate therapy engagement and ensure patient adherence.

FillPoint Health's goal is to be a single-partner solution to help partner pharmacies, pharmaceutical manufacturers, providers and patients access to the specialty medications they need—without all the roadblocks.

Our Therapeutic Engagement Centers (or TEC teams) have a direct-to-provider approach that navigates and supports the patient through their journey 100% of the time.

FillPoint Health transforms the market with capabilities that:

Drive improved data and clinical outcomes

Support access to care

Lower specialty medication cost

Steer members to appropriate sites of service

Enhance chronic care management

Leverage proprietary APIs to reduce friction between practices and specialty pharmacies

Help clinics dispense specialty medications directly to patients

Connect patients that need access to therapy across all 50 states
